

Meet Your Next Governor

J. E. (Big Jim) FOLSOM

Folsom Elected Tuesday By Overwhelming Vote

Big Jim Folsom, native of Coffee county, but in recent years a resident of Cullman, was overwhelmingly nominated in Tuesday's run-off primary for Governor of Alabama. According to unofficial tabulations received from the Associated Press office in Montgomery at 11:30 Wednesday morning Folsom was more than 51,000 votes in the lead of his opponent, Handy Ellis, in a total of 216,000 votes of the state's 234,400. The figures given out are:

FOLSOM	188,660
ELLIS	137,620
	51,140

In Coffee county incomplete returns show that Big Jim again swept the county as he did in the May primary, carrying every box by big majorities. In glancing over the figures it is learned that Beat 12, Talcum, the Folsom old home beat gave the best showing in the county. The vote there was 157 to 1. With both boxes in Beat 8 unreported Wednesday morning, the vote in the county was:

FOLSOM	3419
ELLIS	659
	2760

The County Executive Committee will make the official count in Elba this (Thursday) morning and a tabulation by boxes will be given in The Clipper next week on the governor's race.

For Lieutenant Governor, 24 boxes of the county's 32 gave this result:

INZER	649
NEWTON	1594

For Member of the Public Service Commission, 24 boxes gave the following figures:

HARRISON	248
OWEN	2158

Unofficial reports from over the state show that the race between Inzer and Newton was close, with Inzer leading. In the other race indications are that Jack Owen was far in the lead for the place on the Public Service Commission. Complete and official results will be given next week.

Soil Conservation Over Coffee County

By G. L. Edwards, Soil Conservationist

During the past week, Coffee County farmers gathered 250,500 pounds of blue lupine seed from 145 acres. C. B. Williams, of Kinston, harvested 60,000 pounds of seed from 50 acres, averaging 1,200 pounds per acre. S. O. Parker, F. E. Meeks, J. B. Johnson, J. M. Stokes, A. L. Mouton, George Law and Raif Wilson also made good yields that averaged over 1,000 pounds per acre.

If these farmers cure these seed properly and can market them at the top price, they should sell for approximately \$9,000,000, giving an average gross return of \$62.00 per acre.

Besides the cash income involved, the seed harvested in the county will plant 3,000 acres of lupine this fall. This is only a small fraction of the total acres needed in the county, but it reduces the amount of seed that must be brought into the county. Our ultimate goal should be at least the production of sufficient seed to meet our own needs.

Most of the farmers have already started preparing the lupine land for the next crop. S. O. Parker is going to plant grain sorghum; C. B. Williams is planning to plant soybeans, and J. B. Johnson is planting peanuts, which it is estimated the various tools used for which the land may be used. More of our farmers should consider planting some grain sorghum to help out in the feed shortage.

John B. Johnson, pastor of the First Baptist Church, has started grazing his first-year stand of sorghum. Grazing at this time will help keep down the grass and weeds which compete with young sorghum plants for plant food and moisture. This is a good practice, if care is taken to see that the sorghum is not overgrazed.

SUCCESSFUL VACATIONAL CHURCH SCHOOL AT ELBA METHODIST CHURCH

We have passed the first half of our Vacation Church School with a total enrollment of 101 in the educational work and 11 members who have served on the management and refreshment committees. We appreciate the very fine work being done by our faculty which includes in the Youth Department: Rev. Spoles, Mrs. Kimmy Dorsey and Mrs. Edwin Cooper. Rev. Spoles is in charge of Bible, recreational and service activities with the youth, while Mrs. Dorsey and Mrs. Cooper are directing the union choir which will sing on the commencement program next Sunday evening.

Mrs. A. C. Dunaway, assisted by Mrs. George Kennedy and Mrs. Wm. M. Spoles, has been directing the junior devotional and Bible hour, which is followed by studies in church history. Mrs. Mayo Prescott and Faber Keane have been directing the activities in this department. Hand work from the department will be placed on display next Sunday evening, at which time the juniors will present a pageant, directed by Mrs. Dunaway, assisted by Mrs. Kennedy and Mrs. Spoles.

The primary department is happily developing a rhythm band for accompaniment of their group singing under the direction of Mrs. W. M. Ivingsdorf, accompanied by Mrs. R. L. Cooper. Other instructors in the four classes of this group work are Mrs. Harold Deal, Mrs. Lamar Rainer, Mrs. Bill Madrox and Mrs. Myrtle Alice Hawkins.

Mrs. Price Ringo and her group of twenty ladies who are assisting the pastor as a management and refreshment committee, bring the "house that refreshes" daily, making each recreational period a joy. The school will close Saturday with two penies, that of the primary department being held on a lawn near the church, and that of the juniors and young people at the local swimming pool. Each child is asked to bring sandwiches as his or her contribution to the picnic. All other refreshments will be furnished by the faculty.

The public is invited to attend the school commencement, Thursday evening, June 9, at 7:30, in the Methodist Church auditorium.

LEADERSHIP SCHOOL HELD AT ELBA COURTHOUSE

A leadership school was held at the Elba courthouse on Wednesday of this week on Refreshing Furniture. Miss Lillian Cox, home demonstration agent from Henry County, assisted with this school. Methods of removing paint from furniture were demonstrated, and the boys and girls will find at Magnolia Beach a wide variety of entertainment such as swimming in the bay, fishing, boating (boats will be made available by camp attendants and will be handled by adults), and outdoor games of all kinds. The camp is surrounded by large playgrounds of sand and grass, with plenty of shade and lots of sunshine.

The camp will be supervised by the county 4-H leaders, several local leaders of different clubs, and older youth in 4-H work. All 4-Hers in the county are invited to attend, and any member who has not received a letter about the camp should write or visit the extension office and ask for information concerning it. Detailed information will be sent out later.

Match Factories
Match factories today house not only the chemical and manufacturing plants to make matches, but also make their own boxes for the matches, the cartons for shipping, and operate the printing plants which produce multi-colored advertisements on the covers. The oldest book matches with advertising were not only hand-made but consumed in these operations made the cost high, one of the contributing factors in the early unpopularity of this type of match.

YOU MAY NOT BE ABLE TO GET A NEW CAR RIGHT AWAY

BACK YOUR OWN FUTURE HOW-- AS YOU BACKED THEIRS THEM

State Begins New Emphasis To Encourage Saving Habit

Chairman McMillan Calls On Citizens To Put Extra Dollars Away For Rainy Days To Come

Keep saving. This is the message of State Savings Bond Chairman, Ed Leigh McMillan, to Alabama's bond buyers. The Treasury Department has answered the national request for a continuation of the war bond program. Mr. McMillan said by issuing United States Savings Bonds, "The Savings Bond is a war bond program." Mr. McMillan said "by the same job for the bond buyer that war bonds did for the men who went overseas to fight."

"We were asked to buy war bonds to 'back the attack,' now we are asked to buy savings bonds to 'back our own future,'" he said.

"Every dollar put away now means a cash reserve when dark days come in the future."

"We must spread the national debt. Stop inflation. Have money for new homes, new cars, new appliances, new farm equipment, additional farm lands, vacations and education for our children. Buying U. S. Savings Bonds now is the way."

"There will be a great national emphasis to encourage further saving."

WILKES-WILSON

The marriage of Miss Nelle Wilkes, of Dothan, formerly of Zion Chapel, and John Cecil Wilson, of Evergreen, was solemnized Sunday afternoon, May 29, at 2 o'clock at Zion Chapel Church, Rev. B. F. Pierce, pastor, and close friend of the family, performed the ceremony. The bride was attended by her bridesmaid, Miss Margaret Russell, of Dothan, and her maid of honor, Miss Eleanor Lane, of Dothan. The bride wore a light blue crepe. Her flowers were a corsage of gardenias. The groom was attended by his brother, Leon Wilson, as best man.

The church was beautifully decorated with smilax, ferns and white gladioli.

Following the ceremony, music was rendered by Miss Nelle Wilkes, accompanied by Miss Mary Hunter Sanders, who sang "All the Way." During the ceremony, "To A Wild Rose" was played.

The bride was escorted by Miss Eleanor Lane, of Dothan. The bride wore a light blue crepe. Her flowers were a corsage of gardenias. The groom was attended by his brother, Leon Wilson, as best man.

The groom was lovely in a two-piece dress of light blue crepe. Her flowers were a corsage of gardenias. The groom was attended by his brother, Leon Wilson, as best man.

The bride was lovely in a two-piece dress of light blue crepe. Her flowers were a corsage of gardenias. The groom was attended by his brother, Leon Wilson, as best man.

The bride was lovely in a two-piece dress of light blue crepe. Her flowers were a corsage of gardenias. The groom was attended by his brother, Leon Wilson, as best man.

At the ceremony, the bride's parents, Mr. and Mrs. Alvin Wilkes, entertained at an elaborate reception at their home.

Mrs. Wilson is a daughter of Mr. and Mrs. Alvin Wilkes, of Zion Chapel. She was a member of the 1945 graduating class of Elba High School and has held a position with the First National Bank at Dothan for the past year.

Mr. Wilson is a son of Mr. and Mrs. Arthur Wilson, of Brantley. He entered military service on Jan. 15, 1942, and served four years. Twenty-seven months of this time were spent in China, Burma and India. He returned to the States and received his discharge November, 1945. He is now employed by the Southern Cough Mfg. Co. at Evergreen, where he worked prior to entering the service.

Later in the evening, the young couple left for a short wedding trip to points in Florida, after which they will go to Evergreen to make their home. Contributed.

Another Fat

If fat is a kettle, pan or broiler bursts into flame, smother it, but never pour on water as it will cause it to splatter and spread fire.

Ship Flies by Air To Rush DDT Sales

Insecticide Used to Show Fatal Lure of Poin.

CHICAGO, ILL. — The bill of lading read: "Flies — handle with care. Net weight—0. Gross weight—18 pounds."

The air express agent at Chicago's municipal airport looked at the fly cage and remembered the famous story "Flies Is Pigs," in which railway express agent handled guinea pigs that multiplied faster than he could handle them.

He remembered, too, that flies breed like mad. Hastily, he shoved the flies aboard an air liner and rushed his haul off to the insecticide store. That's the way common house flies are being flown across the country in the year 1 of the atomic age.

In the last few weeks 20,000 flies have been flown to other parts of the country to 15 cities. They are expressed by a paint company to its distributors to demonstrate the fatal attraction of the firm's new wall paint which contains DDT, the new insecticide.

The distributors take the flies out of their comfortable cages and place them in cages sprayed with the new white paint, suitable for attics, basements, storage rooms, poultry houses and the like.

The flies make six point landings on the sides of the cage. After only seven seconds' contact they take a pessimistic view of life. In about 30 minutes they are dead.

The paint manufacturers get their flies from a Chicago oil company which breeds them for laboratory study. The office of price administration hasn't provided a ceiling for flies, and they don't cost anything.

Because air line hostesses have not had training in the care of flies, the paint company has had to anticipate their wants while traveling. Flies can be kept happy if they are moderately warm and if their menu consists of sweet bread, moistened with water.

Should you want to fly flies in luxury liners, the cost is one cent a fly.

Foresees 1,000 M. P. H.

Weapons Radar Directed

BOSTON, MASS. — Former Lt. Gen. James H. Doolittle, now in charge of the nation's defense planning, says "We will fly very shortly" at speeds approaching 1,000 miles per hour.

"The air weapons of the future" would be atomic propelled, long range, rocket-powered, rockets speeding faster than sound—probably with atom bomb warheads.

"Dilettante" weapons, gyro stabilized, rocket propelled air weapons already have achieved speeds of around 2,500 miles per hour and we may anticipate that the air weapons of the future will also be radio controlled and radar directed," Doolittle said in a speech at Massachusetts Institute of Technology's commencement.

"They will be capable of traveling at great distances at super-sonic speeds, in the stratosphere, and will probably have an atomic warhead and may even employ atomic energy as a propulsive force."

Jap Ex-Arm Officers

Are Seeking Minor Jobs

TOKYO, JAPAN. — Growing lines of job seekers, which include ex-officers who want any kind of work, indicate that the government's new economic program is pinching even the rich.

The daily average of applicants at the main Tokyo employment office has reached 800, which is 16 times greater than during the war and 10 times the normal figure in 1936, the agency said.

A last minute rush of buying is under way as Japanese attempt to beat the deadline for turning in all their yen, which they will be allowed to withdraw in restricted quantities. The government will also clamp new price ceilings on necessities; fresh foods will be at about one-third of black market prices and other commodities at about one-half.

This Casey's Will Put

All His Money in Kitty

VIRGOVA. — There's one Casey who didn't strike out, but did strike it rich. Long ago Morton Shirks found a starving kitten in a railroad yard, took it home and called it Casey. When Shirks died and his will was executed, the eight-room house and yard, furniture and all, were bequeathed to Casey as long as he lives. He is cared for by the trustee of the property, Leonard H. Hestad, who deducts Casey's current living expenses (mostly for hamburger) from the rest he pays Shirks' niece, the other two heirs.

2,250 Germans Dock With

4,000,000 U. S. Cigarettes

LONDON. — A shipload of 2,250 German prisoners of war arrived at Liverpool recently from the United States with 4 million cigarettes—1,777 cases.

American sergeant guard said: "Each prisoner was allowed personal luggage up to 60 pounds. These lids crammed their kit bags half full of cigarettes they obtained in their camps."

Disaster Alarm

"5-5-5" is one fire alarm signal of the New York fire department that fortunately never yet has been used. This signal, which means that a fire is beyond control and all buildings in its path have to be dynamited, can call out as many as 15 companies of sappers and miners, each company consisting of about 30 lieutenants who must rush to the spot from their station or home by taxi or some private car and undertake this dangerous work themselves.

Basting Apples

Use sweetened pineapple juice or canned apple juice for basting baked apples—also for basting a nice thick slice of ham.

Improved Uniform SUNDAY SCHOOL LESSON

By BARBARA L. INDIQUER, D. D.

Of The National Bible Institute, Chicago, Ill.

Lesson for June 9

LESSON TEXT—Mark 6:7-13; Luke 10:1, 21; 12:27-32

THE LORD'S SELECTION And he that taketh not his cross, and followeth after me, is not worthy of me—Matthew 10:38

WORKERS FOR GOD And with God! Such is the high privilege of the men and women who respond to his call and who go out to witness for him.

On the one side, we have a world desperately in need of the gospel, perhaps more so than any generation in history. On the other hand, we have the gospel of the saving grace of God in Christ Jesus, the only solution to the problems of mankind, the perfect answer to man's need.

How shall these two be brought together? By sending out witnesses to tell the glad tidings of redemption and peace. Where shall we find these witnesses? In the church, where only the believer in Christ is qualified to tell others of his saving grace.

Our lesson, in telling of the Lord's calling and sending forth laborers, tells us how to find these witnesses. I. God Provides for His Workers (Mark 6:7-10).

Jesus sent out his twelve disciples two by two, thus providing every worker with fellowship and help in hours of discouragement and trial. This also served to keep a man in balance so that he would not become self-willed and proud of his own achievements.

It was a wise provision. Perhaps the church should have observed it with more care, and thus have saved some good workers from losing their way.

They were not to be cumbered with extra equipment, nor be concerned about daily sustenance. The Lord would provide through the hospitality and generosity of his people.

Note that the expected hospitality was not to be allowed to hinder their work (cf. v. 10 with Luke 10:7).

Many a preacher or evangelist has ruined a series of meetings by letting social life hinder his preaching, winning, or preparation for preaching.

II. God Gives Power to His Workers (Mark 6:7, 11-13).

He gave them authority over evil spirits, so that they could drive them out. He gave them power to heal; he gave them power to preach effectively.

The man who goes forth to speak for the Lord does not have to muster up his own puny powers or depend on the weak arm of some human helper. His resources are infinite and omnipotent. He speaks for the Almighty God. He has a message with saving power.

All too often the servants of the Lord are apologetic and hesitant in their ministry. They mistake weakness for meekness, and in their desire not to assert themselves, they fail to speak a ringing, "Thus saith the Lord."

We need a revival of authoritative preaching today, one in which we are not afraid to rebuke sin and any unwillingness to do the brethren's bidding. We need a new emphasis on repentance (v. 12).

III. God Calls Helpers for His Workers (Luke 10:1-2).

After the twelve were sent out, he called and commissioned the seventy. This blessed process has gone on ever since. How blessed it is that even in our day of unbelief and sin, hundreds of young men and women are going out to all the mission fields of the world to work with older and experienced missionaries.

Perhaps these words will be read by some young man or woman who has felt the promptings of the Spirit of God to go into his service. Step out by faith just now, and begin to prepare yourself for God's service.

Do not overlook the important admonition in verse 2. The Lord is waiting for his people to pray for laborers for fields which stand white and ready for harvest.

IV. God Requires Self-Denial of His Workers (Luke 14:25-27).

The mighty works and the powerful words of Jesus made it impossible for people to ignore him. Multitudes followed him, but he, knowing the futility of the service, he loved, faced them with the real demands of discipleship.

The Lord was never concerned with mere numbers. He wanted followers whose hearts were right. The church has broken down its tendency in the world by its frantic desire for more members, great crowds, large church buildings, at the expense of compromise of testimony.

The requirement of the Lord is unmistakable. A man or woman who is so busy with his own plans that he is not willing to sacrifice friendship, nor, even the tender love of his family, to come between the Lord and his servant. He is either Lord of all, or he is not Lord at all.

MRS. EDWIN COOPER HONORED AT SHOWER

On Thursday afternoon, May 23, a beautiful shower was given, the honoree, Mrs. Edwin Cooper, formerly Miss Brantley, daughter of Dr. and Mrs. W. C. Brantley, of our city, whose marriage with Edwin Cooper, son of Mr. R. L. Cooper, took place in March.

This lovely affair was given at the home of Mrs. L. P. Mullins, with Mesdames J. C. Dixon, L. S. Rainer, K. M. Bentley, Drexel Cook, J. W. English and J. M. Windham as assisting hostesses. Mrs. Billy Mullins greeted guests, wearing an afternoon dress of eggshell crepe.

Standing to receive were: Mrs. L. P. Mullins, Mrs. Edwin Cooper, Mrs. W. C. Brantley, Mrs. R. L. Cooper, Mrs. Julia Seger, Mrs. Wayland Dubose, recent bride, and Mrs. Victor Taylor, of Ozark.

Mrs. Mullins wore a model of blue and white jersey with gardenia corsage. The honoree was lovely in gold and black sheer crepe with sequin trim. It featured a sweetheart neckline, short sleeves and flared pleats. She wore black accessories and her hair was styled in a bun.

Mrs. Brantley wore a model of blue and white sheer crepe with gardenia corsage. The honoree was lovely in gold and black sheer crepe with sequin trim. It featured a sweetheart neckline, short sleeves and flared pleats. She wore black accessories and her hair was styled in a bun.

Mrs. Seger wore a model of blue and white sheer crepe with gardenia corsage. The honoree was lovely in gold and black sheer crepe with sequin trim. It featured a sweetheart neckline, short sleeves and flared pleats. She wore black accessories and her hair was styled in a bun.

Mrs. Dubose wore a model of blue and white sheer crepe with gardenia corsage. The honoree was lovely in gold and black sheer crepe with sequin trim. It featured a sweetheart neckline, short sleeves and flared pleats. She wore black accessories and her hair was styled in a bun.
